

NDEKO E-Commerce Web Platform – Product Requirements Document (PRD)

1. Product Overview

The NDEKO web platform is an extension of the existing mobile e-commerce experience. The goal is to maintain visual consistency (brand colors, UI components, and tone) while expanding functionality to meet standard desktop web expectations.

The web experience should feel like a natural evolution of the mobile app—not a redesign.

2. Goals & Objectives

- Maintain design consistency with mobile UI
 - Improve accessibility and usability on larger screens
 - Support full e-commerce flow (browse → cart → checkout → tracking)
 - Enable scalability for institutional and bulk purchasing (e.g., laptop rollout initiative)
-

3. Target Users

- Individual shoppers
 - Business buyers (bulk purchases)
 - Institutional users (schools, departments)
-

4. Design System (From Mobile)

Colors

- Primary: Deep Red / Wine
- Secondary: Green (CTA, success states)
- Background: Light neutral (off-white)
- Accent: Soft gray tones

UI Principles

- Rounded cards
- Clean spacing
- Bold CTA buttons
- Minimal clutter

Must Keep From Mobile

- Card-based product layout
 - Clear CTA buttons ("Buy Now", "Proceed")
 - Tracking visuals (progress steps)
 - Clean onboarding-style messaging tone
-

5. Core Features

5.1 Homepage

- Hero banner (promo like "Fashion sale")
- Search bar with filters
- Category shortcuts (Laptop, Phone, etc.)
- Trending products section
- Personalized recommendations

5.2 Product Listing Page

- Grid layout (3–5 columns desktop)
- Filters (price, category, ratings)
- Sort (popular, newest, price)

5.3 Product Details Page

- Large product image gallery
- Product title, price, rating
- Color selection
- Description
- Related products
- CTA: Add to Cart / Buy Now

5.4 Cart Page

- Item list with quantity controls
- Price summary
- Remove/edit items
- CTA: Proceed to Checkout

5.5 Checkout Flow

- Delivery vs Pickup option (from mobile)
- Address selection
- Payment options:
 - Card
 - Apple Pay (if supported)
 - Others (Stripe, Paystack)

- Order summary

5.6 Order Tracking

- Map-based tracking (desktop expanded)
- Status steps:
 - Accepted
 - Processing
 - Pickup
 - Delivered
 - Delivery time estimate

5.7 Authentication

- Email signup/login
- Google login
- Apple login

5.8 User Dashboard

- Order history
 - Saved items
 - Profile settings
-

6. Additional Web Features (New)

6.1 Navigation Bar

- Logo (NDEKO)
- Search
- Categories dropdown
- Cart icon
- User profile

6.2 Footer

- About
- Contact
- Terms & Privacy
- Social links

6.3 Bulk Purchase / Institutional Module

- Request quote form
- Bulk pricing option
- Admin contact flow

6.4 Wishlist

- Save products for later

6.5 Reviews & Ratings

- User-generated reviews
-

7. UX Considerations

- Desktop grid vs mobile scroll
 - Sticky header for navigation
 - Hover states for products
 - Faster checkout (min steps)
 - Maintain same button styles and colors
-

8. Technical Requirements

- Responsive design (mobile → desktop)
 - SEO optimized pages
 - Fast loading (image optimization)
 - Secure payments
 - CMS for product management
-

9. Success Metrics

- Conversion rate
 - Cart completion rate
 - Average order value
 - User retention
-

10. Future Enhancements

- AI recommendations
 - Subscription purchases
 - Vendor marketplace
-

11. Notes for Development (Lovable / Stitch)

- Maintain visual consistency with mobile app

- Do not redesign color system
 - Use reusable components (cards, buttons)
 - Keep flows identical where possible (especially checkout and tracking)
-

This PRD should guide the creation of a web experience that feels familiar, scalable, and professional while preserving the identity of the NDEKO mobile app.
